

A group of diverse office employees in a modern, bright workspace. Some are sitting at desks with computers, while others are standing and talking. The scene is overlaid with a teal gradient.

## Senior Backend Developer (f/m/d)

You love to work in an international team and you don't see problems, but challenges, you think pragmatic and solution-oriented? Then help us with your expertise to drive our Europa's leading platform for digital business dealings forward.

### YOUR RESPONSIBILITIES

- Key role in an agile team for development and optimization of our SIGNificant Platform based on .NET
- Responsibility of our software products during the entire development process, from feature definition to release and testing periods
- Working on a sustainable and scalable software architecture
- Quality assurance through automated unit testing, code reviews and building of automated end-to-end tests
- Willingness to support in the frontend development (HTML, CSS, JavaScript and/or TypeScript)
- Training and mentoring new colleagues

### YOUR PROFILE

- Excellent knowledge through in-depth Software Engineering and several years of programming experience in software development
- Good knowledge of C#, .NET, Entity Framework and web service technologies (REST, JSON, XML)
- Experience in fields like effective software architecture, automatic testing, data modeling, SQL (MS SQL-Server / T-SQL), information security, performance analysis and optimizing
- Ability to work in a team and good English skills

### OUR OFFER

- Working in an exciting and innovative market environment
- Flexible working hours, uncomplicated holiday planning and home office
- Dynamic and open-minded working atmosphere with attractive benefits
- An international and motivated team that welcomes YOU!

### SALARY

The salary is 53.500 EUR gross (excluding overtime) per year. We are willing to pay more, consistent with market value and dependent upon qualifications and experience.
