

IT System Engineer for Microsoft Infrastructure Solutions (m/f/d)

You are familiar with the Microsoft Windows Server landscape and would like to collaborate in various international projects? You already have experience in system administration and in operation of IT infrastructures and love a varied job? Then we might be looking for you!

YOUR RESPONSIBILITIES

- Implementation of our product in existing IT infrastructures
- Responsible for the realization of projects in terms of technical implementation
- Support of customers and colleagues with technical know-how
- 3rd level support for our customers

YOUR PROFILE

- Computer Science or related relevant degree
- Knowledge of Windows system administration incl. Microsoft IIS
- Knowledge of network technologies (router, firewall, load balancer)
- Understanding of software architecture concepts and deployment
- Willingness to travel, up to 30% of your working time
- Good communication skills in German or Italian, and English

OUR OFFER

- Working in an exciting and innovative market environment
- Flexible working hours and uncomplicated holiday planning
- Dynamic and open-minded working atmosphere with attractive benefits
- An international and motivated team that welcomes YOU!

SALARY

The salary is 36.000 EUR (Junior Position), 39.000 EUR (B.Sc) and 42.000 EUR (M.Sc.) gross (excluding overtime) per year. We are willing to pay more, consistent with market value and dependent upon qualifications and experience.
