

Senior Backend Developer (m/f/d)

You love to work in an international team and you don't see problems, but challenges, you think pragmatic and solution-oriented? Then help us with your expertise to drive forward our European leading platform for digital business.

YOUR RESPONSIBILITIES

- Key role in an agile team for development and optimization of our SIGNificant Platform
- Responsibility of our software products during the entire development process, from feature definition to release and testing periods
- Contributing to a sustainable and scalable software architecture
- Quality assurance through automated unit testing, code reviews and building of automated end-to-end tests
- Training and mentoring new colleagues

YOUR PROFILE

- Excellent knowledge through a degree in Software Engineering or ability to demonstrate equivalent experience
- Several years of programming experience in the web development
- Good knowledge of C#, .Net, Entity Framework and web service technologies (REST, JSON, XML)
- Experience in fields like effective software architecture, automatic testing, data modeling, SQL (MS SQL-Server / T-SQL), information security, performance analysis and optimizing
- Ability to work in a team and good English skills

OUR OFFER

- Working in an exciting and innovative market environment
- Flexible working hours and uncomplicated holiday planning
- Dynamic and open-minded working atmosphere with attractive benefits
- An international and motivated team that welcomes YOU!

SALARY

The salary is 53.500 EUR gross (excluding overtime) per year. We are willing to pay more, consistent with market value and dependent upon qualifications and experience.
