

Senior Web Frontend Developer (m/f/d)

You are a master in your field and you give great importance to the right user experience? Then take a central role in our development team and bring our innovative and easy-to-use platform for digital business dealings to the next level.

YOUR RESPONSIBILITIES

- Key role in an agile team for development and optimization of our SIGNificant Platform
- Collaboration with our product management and sales team to build working customer solutions
- Responsibility for our software products during the entire development process, from feature definition to release and testing periods
- Contributing to a future-proof architecture of our products within our team
- Involvement in decisions for creating an engaging user experience
- Training and mentoring new colleagues

YOUR PROFILE

- Excellent knowledge through a degree in Software Engineering or ability to demonstrate equivalent experience
- Several years of programming experience in web development
- Experience with web technologies like HTML 5, CSS, JavaScript, jQuery and Ajax
- Good knowledge in C#, .Net, ASP.Net MVC
- High demand on your code quality
- Ability to work in a team and good English skills

OUR OFFER

- Working in an exciting and innovative market environment
- Flexible working hours and uncomplicated holiday planning
- Dynamic and open-minded working atmosphere with attractive benefits
- An international and motivated team that welcomes YOU!

SALARY

The salary is 53.500 EUR gross (excluding overtime) per year. We are willing to pay more, consistent with market value and dependent upon qualifications and experience.
